

Wendl & Lung since 1910
 Tradition – Innovation

Mod. 122 – Universal

Technical data

- » Precisely engineered soundboard embedded in a robust back frame construction – producing a distinctively sonorous and rich tone.
- » Climate-proof multi-laminated pin block – giving excellent long-term tuning stability.
- » Our distinctive Wendl & Lung piano action – allowing a precise and even touch.
- » The key frame and key bed are made of aluminum – resistant to changes in temperature and humidity.
- » The keys consist of 17 laminated layers with an additional hardwood segment – highly resistant to climatic fluctuations.
- » Extra large piano wheels – facilitating ease of movement.
- » The Wendl & Lung mute system – allowing discreet piano practice, even at night.
- » Metal foot pedal plate – protecting the fine cabinet board around the pedals.

*Played worldwide in conservatories and academies of music,
 highly rated by technicians and performers alike!*
